

# ***My Prep***

Lets learn Hacking with Practical

My Goal is to get : OSCP

OFFENSIVE SECURITY CERTIFIED PROFESSIONAL

## ***The Setup***

The System :

Processor:

| <b>Intel</b> |             | <b>AMD</b> |
|--------------|-------------|------------|
| i3 -         | Minimum     | -Ryzen 3   |
| i5 -         | Recommended | -Ryzen 5   |
| i7 -         | Better      | -Ryzen 7   |
| i9 -         | Best        | -Ryzen 9   |

RAM:

2-8 GB - Minimum  
8-12 GB - Recommended  
12-32 GB - Best

Storage :

100 GB - HDD or SSD

Operating System:

Parrot OS - Beginner Friendly

or

Kali Linux

!! Note: You can either use this operating system as Virtual machine or Full installation!!

!!Note: This is purely for educational purpose only!!

!!make sure the network connection is in "bridged" in VMware or Virtualbox settings. This will enable us to use internet in the VMware!!

!!Note : Keep your Linux Os updated and Upgraded!!
